

TABLE OF CONTENTS

Introduction

- The Mystery Picture
- Why Use Charts?
- The Bottom Line of Charting
- Why This Book?
- The Mystery Picture Revealed

Part 1: Charting Basics

Basic Knitted Fabrics

- The First Rules of Knitting Charts
- Stockinette Stitch
- The Symbol Key
- Reverse Stockinette
- Compare the Charts to the Swatches
- 1x1 Ribbing
- 2x2 Ribbing
- Seed Stitch
- Moss Stitch
- An Alternate Moss Stitch
- Garter Stitch
- Charting Rules So Far

Charting on the Computer

- My Preferred Method
- The HollyKnits Knitting Font
- Typing Up a Chart Quickly
- The Full Chart
- Duplicating Rows If Needed
- Personalize the Chart
- Let's Review
- An Alternative: Type Up Each Row in Order

Working from Charts

- Use a Photocopy
- Marking Your Place on the Chart

Project 1: Purl Diamond with Seed-Stitch Border

- The Bottom Border
- The Motif
- The Complete Chart
- Compare the Samplers to the Chart
- Catching Typos with a Chart

Lessons Learned: Single Motifs
A Closer Look at Doubling the Motif Height
The Corrected Chart with the Motif Rows Doubled
Design Your Own Motif

Cables and Twists

Sample Cable Patterns
A Sample Twist Pattern
Symbols Included in the Knitting Font
Why We Can't Put Each Symbol in Its Own Column

Project 2: Aran Sampler

Putting the Pattern Charts All Together
Working from the Project Chart
The Chart So Far
Lessons Learned: Combining Pattern Charts in One Project Chart
Adding Designer Details
Is This Chart Good Enough?
The Big Surprise: You CAN Cable on Private-Side Rows
Dealing with Foundation Rows Exactly
Option 3 for Dealing with Foundation Rows
Option 4 for Dealing with Foundation Rows
The Final Chart with Foundation Rows
Changing Which Pattern Row Is Row One, Just Because We Want To

Decreases

Types of Decreases
Single Decreases in Charts
Single-Decrease Sampler: Mitten Fingertip
Surprise! The Charts Don't Match the Knitting
One Other Option
Using a Two-Stitch-Wide Symbol for Single Decreases
Double Decreases in Charts
Higher Decreases
Purling Decreases
Sometimes We Must Do Purling Decreases

Increases

Types of Increases
Increase Sampler: Toe-Up Sock
Multiple-Stitch Increases
Charts Don't Have to Be Square

The Dreaded No-Stitch Symbol

- A Small Swatch
- What the Swatch Shows
- A Different Form of the Chart
- A Third Form of the Chart
- One Last Version of the Whole Chart
- The Bottom Line
- Dread the No-Stitch Symbol No Longer
- One Last Trick
- Revisiting the Aran Sampler
- For Patterns That Pull In

Decreases + Increases = Lace

- Lace Diamonds
- Easy Version: No Lace Action on Private-Side Rows
- Advantages of Easy Lace
- Two-Stitch-Wide Decrease Symbols Don't Work Well for Lace Charts
- Hard Lace: Lace Action on All Rows
- We've Seen This Effect Before
- Switching a Lace Chart to the Other Technique
- Other Decrease-Positioning Possibilities
- Other Possibilities

Colorwork Charts

- Two Ways in a Word Processor
- Multiple Foreground Colors
- Combine Colors and Symbols

Part 2: Understanding Pattern Repeats

Working Pattern Repeats

- The Stitch Repeat
- The Row Repeat
- Stitch Repeat, Row Repeat, or Pattern Repeat?
- Advantage of Charting Only the Pattern Repeat
- Review: Stitch and Row Repeats
- A Variation on the Chart
- Two More Versions of the Same Chart
- Most Charts Are Clear
- An Alternate Way to Show the Pattern Repeat

One Last Point
Charting Rules: Working Pattern Repeats
Lessons Learned: Working Pattern Repeats
You Already Knew How to Do This
Working Pattern Repeats in the Round
Some Patterns Are Not Marker-Friendly

Finding the Pattern Repeat

Project 4: The Basket-Weave Hot Pad
Let's Start Charting
Analyze the Partial Chart
Finding the Stitch Repeat
The Stitch Repeat in the Row of Offset Blocks
The Rectangular Stitch Repeat
Finding the Row Repeat
The Pattern Repeat
The Final Basket-Weave Pattern Repeat
Checking Our Work
Lessons Learned: Finding the Pattern Repeat
How Many Stitches for a Larger Project?

Tweaking a Pattern

Tweak the Top Edge
Variation #1: Tweak the Last Row of Blocks
Find the Pattern Repeat of Variation #1
A Complete Chart for Variation #1
Charts for Variation #1
More Ways to Tweak a Pattern Chart

Using a Motif as an All-Over Pattern

Other Ways to Arrange Motifs
A Closer Look at the Interlocking Diamonds

Part 3: Harnessing the Power of the Computer

Why I Use Multi-Row Tables in a Word Processor

Option 1: Use Regular Lines
Option 2: Put All Pattern Rows in One Table Row
Option 3: Put Each Pattern Row in Its Own Table Row
Comparing the Three Methods
My Preference May Not Be Yours

Converting a Chart from Ordinary Lines to a Multi-Row, Multi-Column Table

Making the Switch from Lines to Tables

Lessons Learned: Converting a Chart from Ordinary Lines to a Multi-Row, Multi-Column Table

Creating Your Own Cable Symbols

An Example with a Defined Cable Symbol

Example 1

Example 2

More Chart Tips

Use Really Big “Paper”

Number the Stitches

Substitute Numbers Strategically

Add Special Rows to Do Addition

Filling Chart Columns Quickly

Alternative Stitch- and Row-Repeat Markers

Color Can Be Our Friend

Show Needle Intersections

Create a Basic Chart Template

The HollyKnits Knitting Font

My First Steps in Charting

Problems with Available Knitting Fonts

So I Made My Own Knitting Font

The Font Symbols

Part 4: Project Charts

[to come]
