

Pickle Juice Socks

Pattern Name: Ridgeline Master Sock by Cat Bordhi

Source: *New Pathways for Sock Knitters, Book One*

Yarn: Knit Picks Stroll Brights in Pickle Juice, 4.28 skeins, 214 g

Gauge: 5.7 sts and 7 rows = 1 in with three strands held together (I used 3.25 mm)

Tags: toe-up, triple

Notes

Because of some folks' concern over how thick socks made with three strands are, I took photos to show that they are not outrageously thick.

Since the side view shows that the instep and sole together are two stitches tall (really, more like 1.5, considering that they're both turning a corner), then the socks are

$$1 \text{ divided by } 5.7 \text{ st/in}$$

which is 0.176 inches. That's about 1/6 inch (4.5 mm).

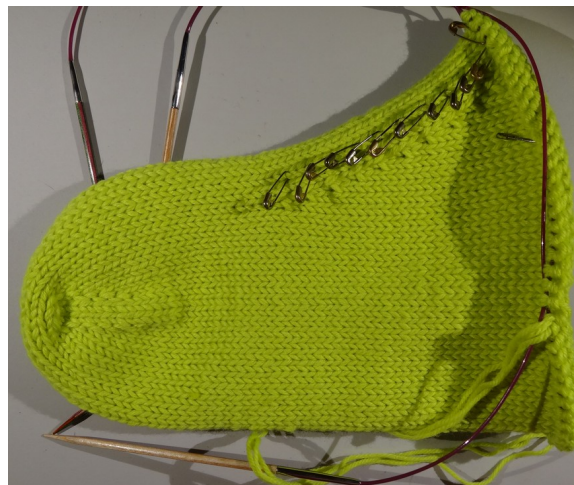

Will they fit in all shoes? No. But they won't be as thick as might be thought.

Stitches are separate even without plying the three strands
